

Alexander Osahon Oronsaye

Full-stack Developer

✉ osahonoronsaye@yahoo.com ☎ +2349083094810

Dedicated freelance software developer with 4+ years of personal experience and currently in search of a position within an organization as an intern or junior developer to apply technical skills and contribute to the development of software solutions. Possessing a strong understanding of frontend and backend development with a proven ability to drive efficiency, deliver objectives and collaborate within teams, I am interested in gaining hands-on experience in a professional and collaborative environment with the aim of enhancing my programming expertise.

Experience

Freelance Software Developer

2020 - present

- Developed a dynamic website for a production and event company resulting in the improvement of website performance and web traffic by 50%.
- Designed and developed a custom e-commerce platform for a furniture retailer which featured inventory management with real-time stock update, secure payment integration using Paystack and Flutterwave, product categorization, product wishlist and mobile responsive design. Improved client's customer reach by over 100%. Technologies used: NextJS, MongoDB, NodeJS, Tailwind CSS.
- Designed and developed a personal blog with multiple authentication providers, blogpost categorization, and comment system. Technologies used: NextJS, Prisma, MongoDB, NodeJS.

Software Engineering Intern at PayedIn

- Collaborated with development team to identify, document, and track bugs. 2022
- Conducted thorough regression testing on mobile banking applications across multiple devices and operating systems.
- Participated in daily stand-ups and sprint planning meetings, providing regular testing status updates to stakeholders.
- Executed comprehensive test plans for payment processing systems, ensuring compliance with financial regulations and security standards.

UI/UX Intern at New Horizons Computer Learning Centers

2022

- Participated in an intensive UI/UX internship program, receiving comprehensive training in key aspects of user interface and user experience design.
- Collaborated closely with designers and cross-functional teams to conceptualize, wireframe, and prototype user-centric interfaces.
